

BOLT ON LOCKS WITH FOREND

SPECIFICATION
SHEET

/ 148

- Ⓜ This variation of the Select Pro range has a lockcase without the projecting security escutcheons on each side and is fitted with a stainless steel forend plate.
- Ⓜ These locks can be fitted into a mortise on the edge of a gate or door. They are ideal for use on wooden gates where the long 30mm throw allows for varying gaps between the gate and the post.
- Ⓜ Supplied with 90mm long eurocylinder and 2 screw fixed flat escutcheons.

PRODUCT DETAILS

Product code:	Description:
SBD1601F	Deadlock with forend
SBLD1601F	Latch deadlock with forend
SBKLLT1601F	Long throw keylatch with forend

Locksize: 110 x 98 x 30mm (H x D x W)

INSTALLATION

1. Mortise the timber to take the lock body.
2. Cut holes for the eurocylinder to slide through the lock.
3. Install the lock and fix with 4 screws through the forend plate.
4. **MAINTENANCE** Every two months, lubricate the latchbolt with light oil. Annually, dismantle the lock and spray the mechanism inside with light oil.

 **GATEMASTER**
