

# Weld in Long Throw Keylatch

- Gate can be slammed shut and requires the key to open every time.
- Stainless steel latchbolt which springs a unique 22mm into the gate post. Long throw for extra security.
- Supplied with gate post strike plate
- Easy to rotate latchbolt for LH/RH gates
- Latchbolt is adjustable in length for precise fitting on site

### Product Options

Four lockcase widths available,  
**SWKLL1630** 30mm wide  
**SWKLL1640** 40mm wide  
**SWKLL1650** 50mm wide  
**SWKLL1660** 60mm wide

### Installation

Weld the lockcase to the gate and galvanise or paint as part of the gate. Fit the lock and Eurocylinder into the lockcase and secure with screws.

Weld the strike plate to the gate post & bend to provide a ramp for the latch to ride up.

### Maintenance

Every 2 months - Lubricate latchbolt with light oil.  
Annually – Dismantle lock and spray mechanism inside with light oil
